City of Skyline

City Council Meeting Agenda

August 11, 2025/ 6:45 PM / Skyline City Hall

Agenda:

❏ Call Meeting to Order at 6:45 pm

❏ Pledge of Allegiance

❏ Public Forum -

❏ Pump House Project Update

❏ Skyline Cooperative -

❏ Approve Agenda and Minutes and Minutes from July 30, 2025 Special Meeting

❏ City Clerk Report - update on re-keying the hall.

❏ City Treasurer Report

❏ Water and garbage bill list

Departmental Reports

❏ Water Department-

❏ Street Department-

❏ Parks and Playground Department– Michelle Kotila absent: I have the paint and supplies to give the fridge a face-lift, I just haven't had time to do it yet. It's on my list! Sign count and prices are still on my to do list too. If we can get a group of residents to pull weeds in the playground sand, they are getting out of control. Finally, I did contact amlawn about spraying under the towers but haven't heard back. Did that get done?

❏ Public Safety-

Old Business:

--MS4 Part 1 Permit Application

New Business:

- Potential State of Disaster - from Eric Weller
- -Blue Earth Co HMP question discussion and update on plan for survey completion (Tuesday August 19th 5:30 pm City Hall)
- -Drainage meeting follow-up

- Report out on activities since special meeting (Paige-contractor/engineer conversations, other?, Eric-flooding data collection efforts, Joanne-committee, PCA planning grant, other?)
- Should council consider publishing policy on drain tile (e.g. downspouts should not be tied in)?
- Discuss plan and options moving forward
- (Annual) Budget review- I'm not sure who has the budgeting materials, but the council should review the past budget and discuss budget for 2026 (note LMC recommends budget discussion occur in summer and I think the discussion is particularly pertinent with potential upcoming drainage/stormwater work)
- -City communication and public data/information access conversation:
    - How can the city council improve communication to the community?
    - Should all council members have access to the official city website? City blog on the website?
    - How do we differentiate communication from individual council members versus official city messaging and plans (i.e. council-discussed and approved)?
    - Document request and access policies (i.e. pretty much all city data is public data) - both for council members and the general public?
